

I really enjoy and benefit from listening to XM Satellite Radio and its traffic and weather channels. Satellite radio provides variety and quality that are not available elsewhere. I pay for the service and it should not be up to the National Association of Broadcasters to dictate what is permitted on the air. I plead of the FCC to reject the NAB's petition 04-160 and to support satellite radio's ability to provide the kind of programming that I demand and deserve. Thanks for your consideration.
